Catch up with innovation

10 August 2022

The way legal services are provided is always evolving and law firms increasingly have the opportunity to be at the forefront of these changes.

We held two Innovate events in Brighton and Swansea last month to give an insight into the challenges, opportunities and what other law firms are already doing to drive their businesses forward.

Topics discussed included:

- Effective use of both legal and everyday consumer tech
- How to get the best from existing software and IT
- The role artificial intelligence or new technologies could have in your business
- The potential for innovation beyond technology, including hybrid and new ways of working
- How we can help you overcome barrier to innovation.

You can catch up on those sessions through our 'watch again' facility on our YouTube channel.
